

Hudson-Sudbury Jail Diversion Program

Quarterly Report: April-June 2019

JDP Interventions

During this second quarter of 2019, Hudson-Sudbury police officers referred a total of one hundred and twenty-one (121) cases to the embedded Jail Diversion clinician.

April	53
May	36
June	32
Quarterly Total	121

Arrest Diversions

The primary goal of the Hudson-Sudbury Jail Diversion Program (JDP) is to divert low-level offenders away from the criminal justice system and into more appropriate community based behavioral health treatment. During this quarter of 2019 a total of four (4) individuals with mental illness were diverted from arrest by Hudson-Sudbury police officers. Below is the breakdown of arrest diversions per month and the percentage of diversions.

In addition to the benefit of diverting individuals in crisis from arrest, this represents estimated cost savings of \$17,640 to the criminal justice system (\$2,520 per arrest event).

April	3	(60%)
May	2	(67%)
June	2	(100%)
Quarterly Total	7	(70%)
Cost savings	\$17,640	

Emergency Room Diversions

An additional goal of the JDP program is to reduce the number of individuals referred to the local hospital Emergency Department (ED) by Hudson-Sudbury police officers. During this quarter of 2019, twenty-four (24) individuals were diverted from unnecessary hospital admissions due the presence of the JDP clinician on scene.

This represents health care cost savings of \$80,000 (\$4,000 per ED diversion).
